

## Junior Fleet

We have had a lot of success getting good participation from our younger windsurfers to have a Junior Fleet. You can tell by our racing results that this fleet is very competitive also. We are again challenging our up and coming younger windsurfers to come and be part of our regatta. Of course, I have to do something on my part to help with this also. So as before there is **no entry fee** required for sailors entering the Junior Class that are with a registered adult sailor.

We are planning on running these races during the lunch breaks on both Saturday and Sunday this year. This gives the parents that are competing in the regatta, a chance to help their children get ready for their start. We set this course close to the shoreline, so as to make it fun for all to watch.

We recommend bringing along your small youth sails for the young sailors to use for their race.
